The Exhibition will be conducted in accordance with the Standards of the Photographic Society of America Stereo Division. The exhibition is open to anyone; however, an entry may be rejected when the sponsoring organization or its agent, in its reasonable discretion, believes the entry does not conform to the exhibition rules and conditions. Entries must be the work of the entrant, except for mounting. They can be home or trade processed. Entries must bear the title and the entrant's name, (all text to be on the reverse side of prints, all digital files to be named as noted earlier on page 1).

Entries must originate as photographs (image-captures of objects by light sensitivity) made by the entrant on photographic emulsion or acquired digitally. All images must be original and may not incorporate elements produced by anyone else. By virtue of submitting an entry, the entrant certifies the work as his own and permits the sponsors to reproduce all or part of the entered material free of charge for publication and/or display in media related to the exhibition. This may include low resolution posting on a website. The exhibition assumes no liability for any misuse of copyright. Images may be altered, either electronically or otherwise, by the maker and artwork or computer graphics created by the entrant may be incorporated if the photographic content predominates, subject to divisional restrictions. All final work must be on photographic film or photographic or electronic print material, mounting excepted, or in digital JPG files (sizes noted earlier on page 1).

Every care will be taken with the entries but no responsibility can be accepted by the Society for loss or damage from any cause. Packing must be adequate since it will be used for return of slides and prints as far as is practicable. Lightweight packing such as expanded polystyrene or bubble plastic is recommended.
